

# Smart City and Digital Transformation Strategy Timișoara 2022-2027

# MAP OF THE STRATEGY

## The Process of Co-Design

## Arguments in Favour of the Smart Cities

## Why Timisoara Smart City?

- ↗ 5 categories of dysfunctions as perceived by the professionals, that the strategy will address
- ↗ 6 categories of needs coming from enterprises and organisations, that the strategy will address
- ↗ 9 smart city value propositions, in response to the dysfunctions and needs
- ↗ Adequate premises – use of ICT in households and at individual level

## Strategic Impulse

- ↗ Motto, Vision, Mission
- ↗ 7 Ambitions

## Operational Impulse

## Governance and Implementation

- ↗ Each of the 7 Ambitions: current situation in the city, SWOT analysis, impact targeted by the Ambition, strategic objectives and projects, open actions, digital enablers and relevant local actors

## TRIGGER POINTS FOR THE STRATEGY

The opportunity created by the *accelerating global digital transformation*, and therefore by the **existence of supporting tools for cities** to seize this opportunity

Favourable context of *EU policies for sustainability and digitalisation*, accompanied by **EU funding** for cities

The chance to prepare and implement *significant* and **decisive investment projects** for the development of the city

Launching and piloting *participatory consultation and decision-making tools* for citizens, which will subsequently become a **constant in the life of the city**

Envisioning a *gradual, structured and inclusive digital transformation*, during which, through digital education, the vast majority of citizens will be able to become **users**

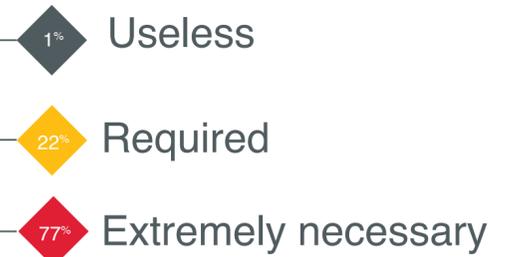

# Why Timișoara Smart City?

*From your point of view, how necessary is a*

# Smart City

*strategy for Timisoara?*

# 77%

**Consider a Smart City and Digital Transformation Strategy for Timișoara to be *extremely necessary*.**

(First Smart City consultation, September 2021, 305 respondents)

# The 5 Categories of Dysfunctions to be Addressed by the Strategy

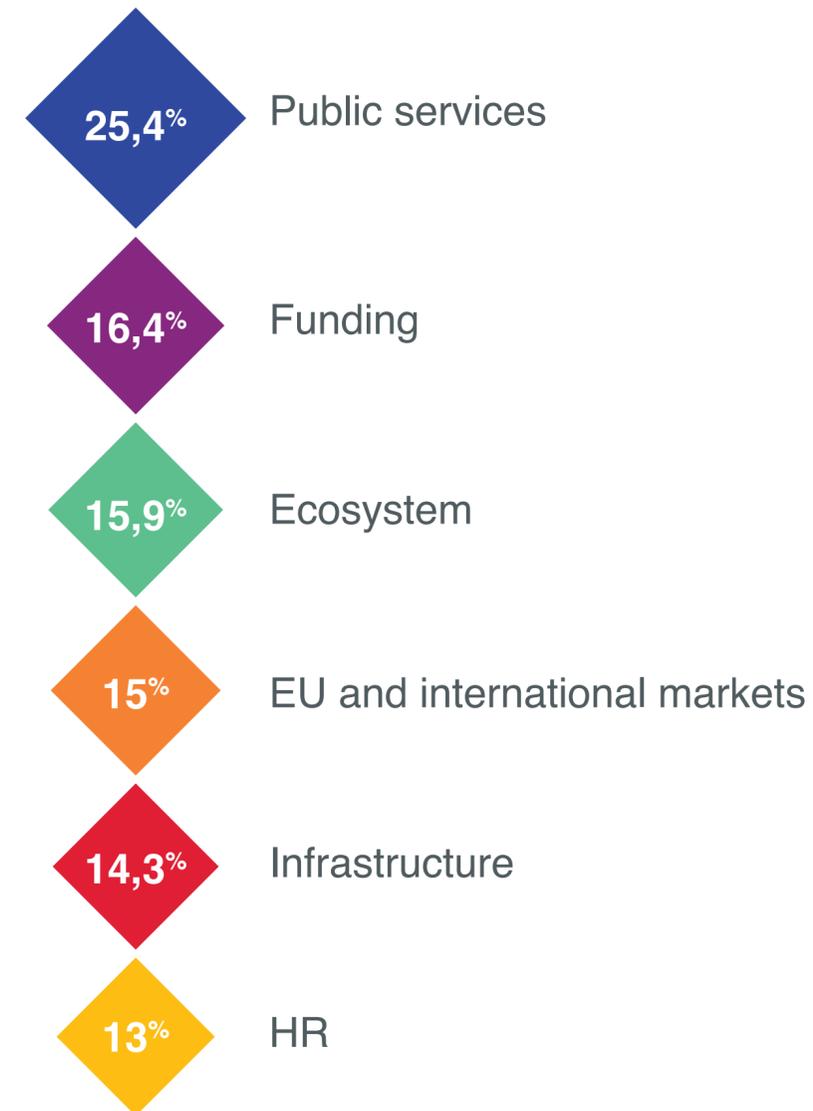

**Categories of city level dysfunctions to which the strategy should respond**  
(% calculated from 457 open answers)

# The Smart City Value Proposition, for Enterprises and Organisations

## 6 Categories of Needs, Coming from Enterprises and Organisations (% of 3196 votes)

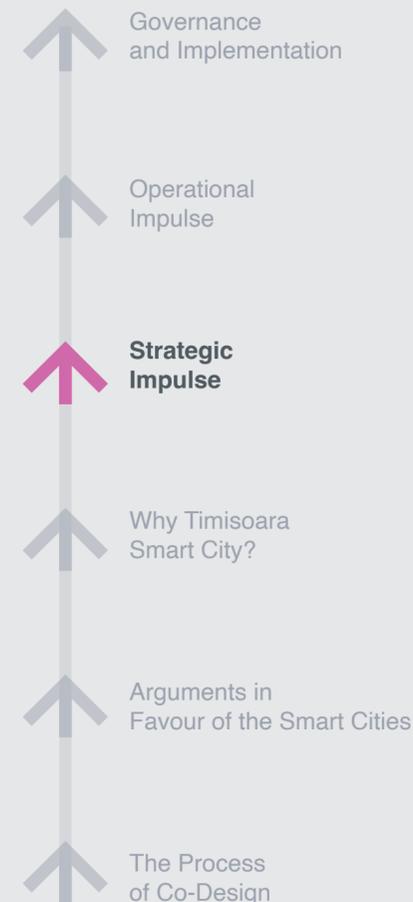

# Strategic Impulse

# MOTTO

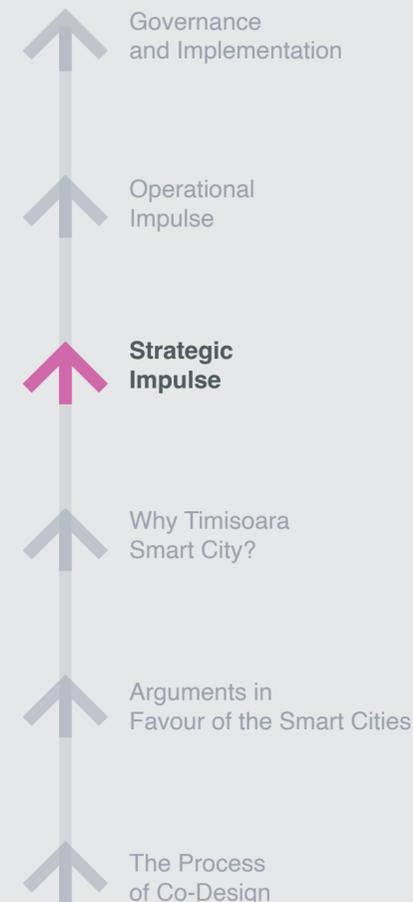

*of the Smart City and Digital Transformation  
Strategy Timisoara 2022-2027:*

***INNOVATION MADE  
ACCESSIBLE TO EVERYONE!***

- The wide majority of smart city and digital transformation interventions are based on innovation, be it about tangible products, services for citizens, or processes to optimise the flow of resources at city level.
- Through the Motto "Innovation Made Accessible to Everyone!" we aim at **adapting innovation** to citizens' and organisations' needs so that they can get **the best value**.

# Strategic Impulse

# VISION

*of the Smart City and Digital Transformation  
Strategy Timisoara 2022-2027:*

## ***TIMIȘOARA 2027: EUROPEAN LOCATION OF CHOICE FOR HUMAN RESOURCES ENGAGED IN DEVELOPING INNOVATIVE PRODUCTS***

➤ We are familiar with the **ethos of Timișoara as a city of technology, urban and cultural premieres**, in Romania, as well as in Central and South-Eastern Europe, sometimes even at European level. By boosting **the structural and innovation capital of the city, around the smart city strategy**, we have the opportunity to create the premises for an attractive city for talents, providing to them a **platform for research, development, testing, prototyping, piloting and launch of innovative solutions.**

➤ The structural capital of the city refers to collaboration, interconnectedness and exchange between organisations.

# Adequate Premises

## Use of ICT in households and at individual level

First DESI survey for Timișoara – Digital Economy and Society Index – undertaken by the West University of Timișoara, as part of the Barometer of the Quality of Life

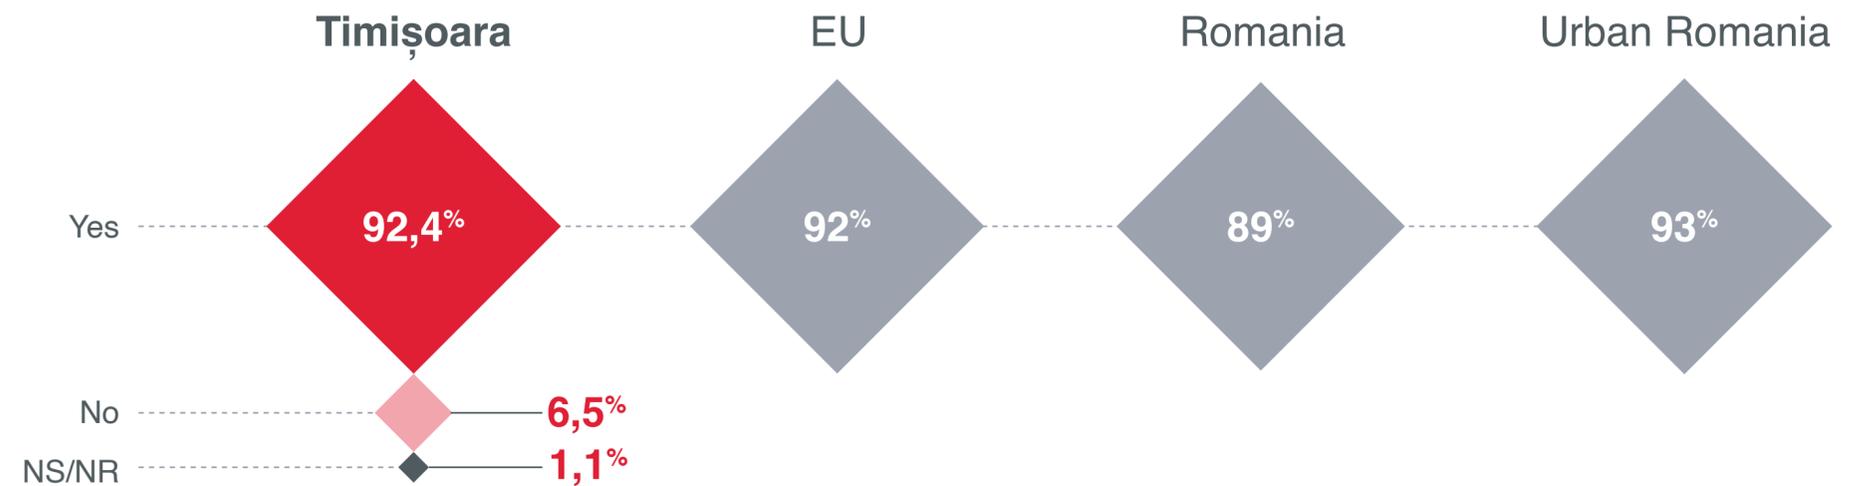

**1.413**  
respondents

**Nov. 2021 – Jan. 2022**  
survey period

Do you or anyone in your household have access to the internet at home?

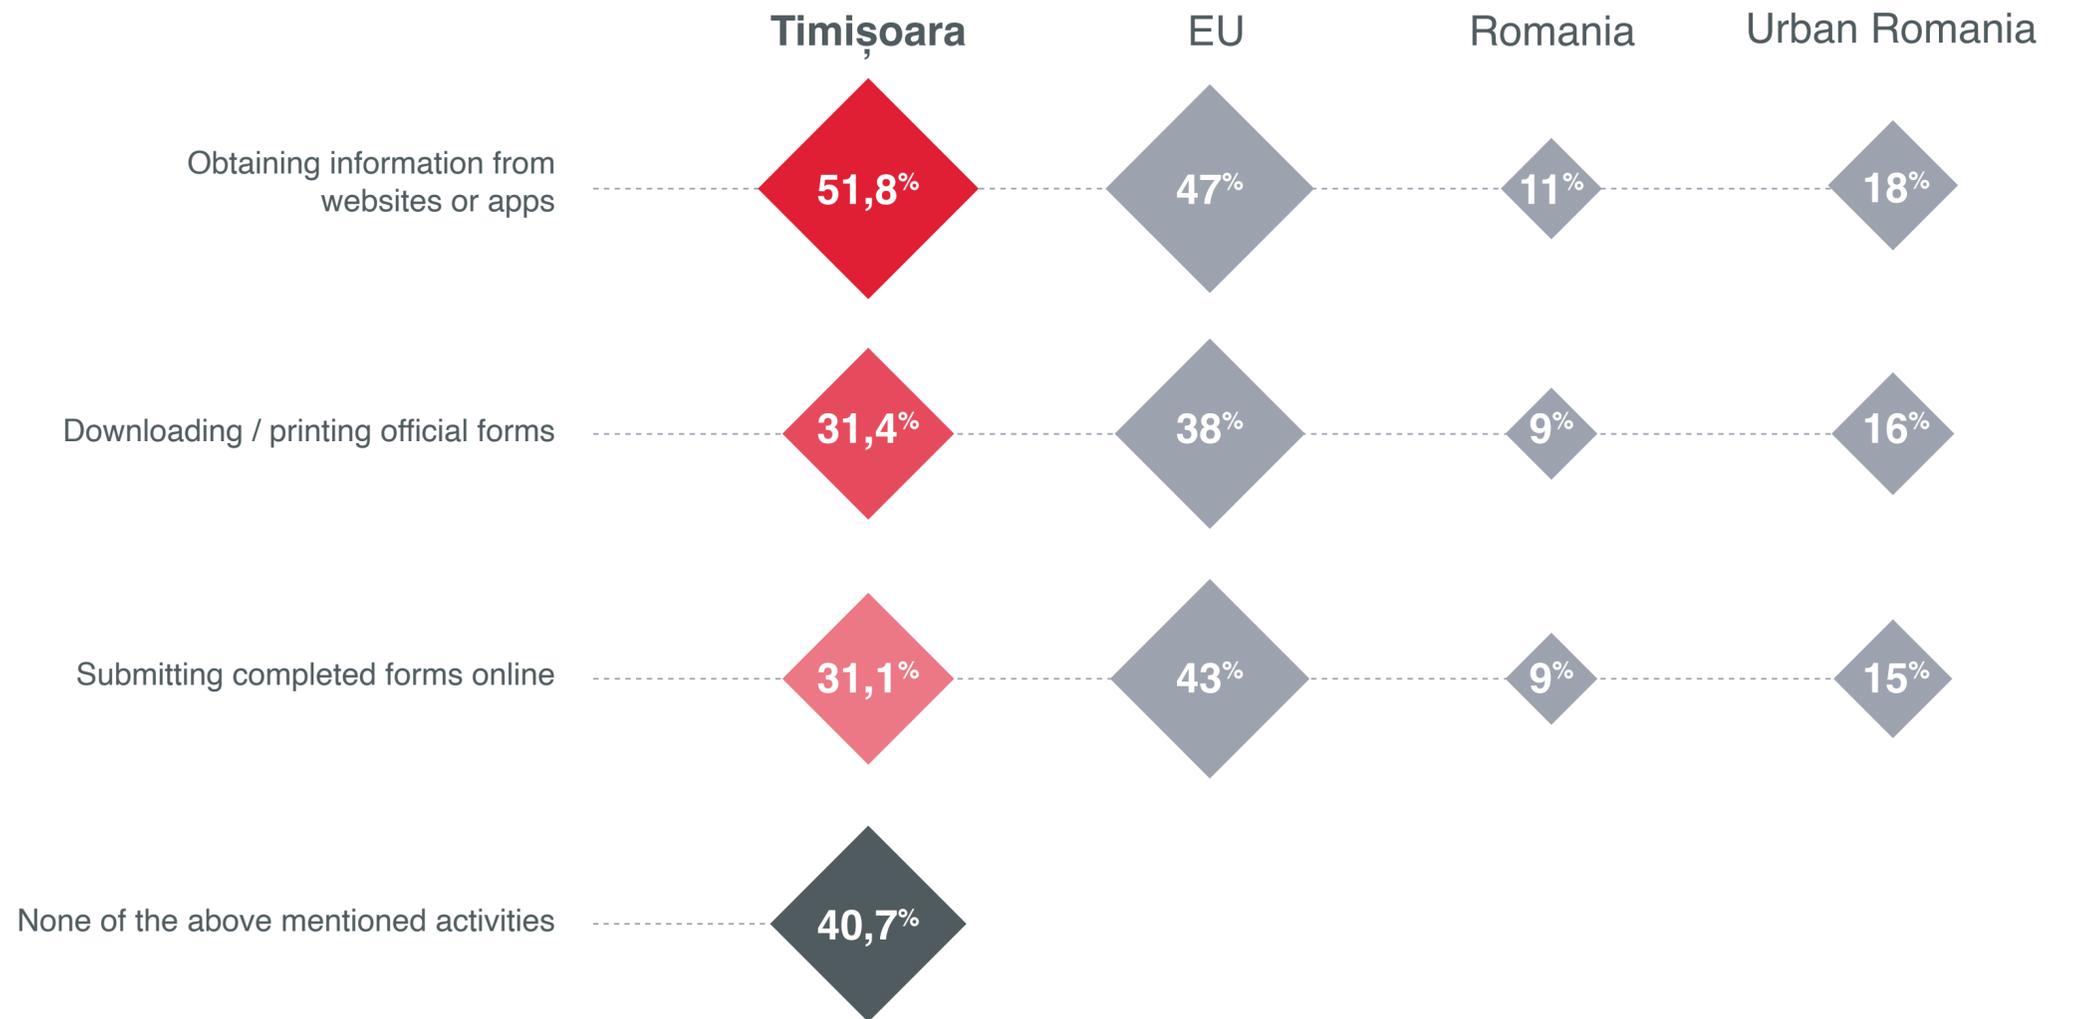

**Timișoara exceeds the EU average !**

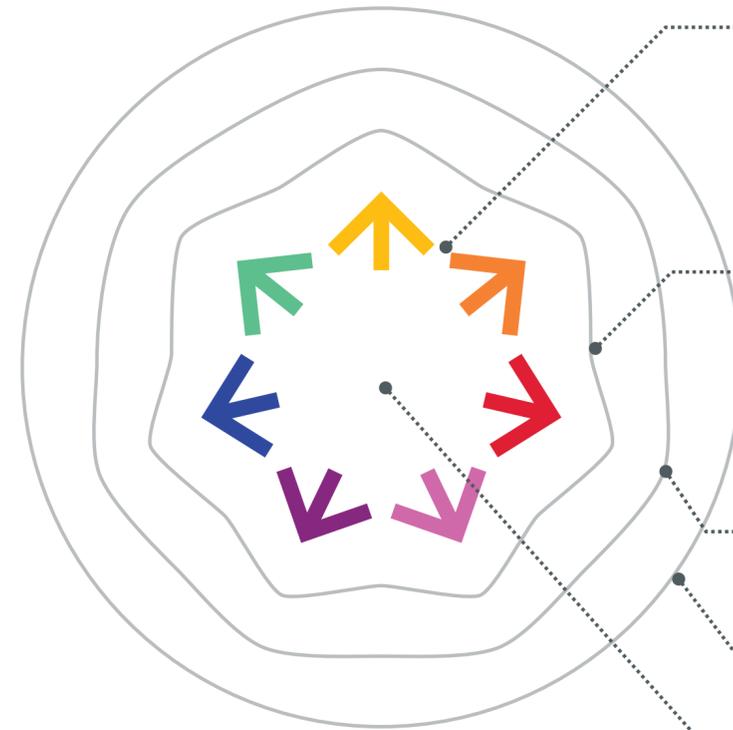

# Adequate Premises Use of ICT in households and at individual level

## Did you interact with public authorities for over the internet?

# Levels of engagement

**Steering group** consisting of experts with knowledge and expertise in areas directly related to the theme of smart cities: participatory processes for citizens, urban development, environment, quality of life, transparency and open data, information technology, mobility and innovation

**Extended stakeholder group - professionals (<=500)** from business, academia, finance, research, public administration, business support organisations, civil society and freelancers

**Citizens** – DESI Timișoara, for the first time as a component of the yearly *Barometer of the Quality of Life*

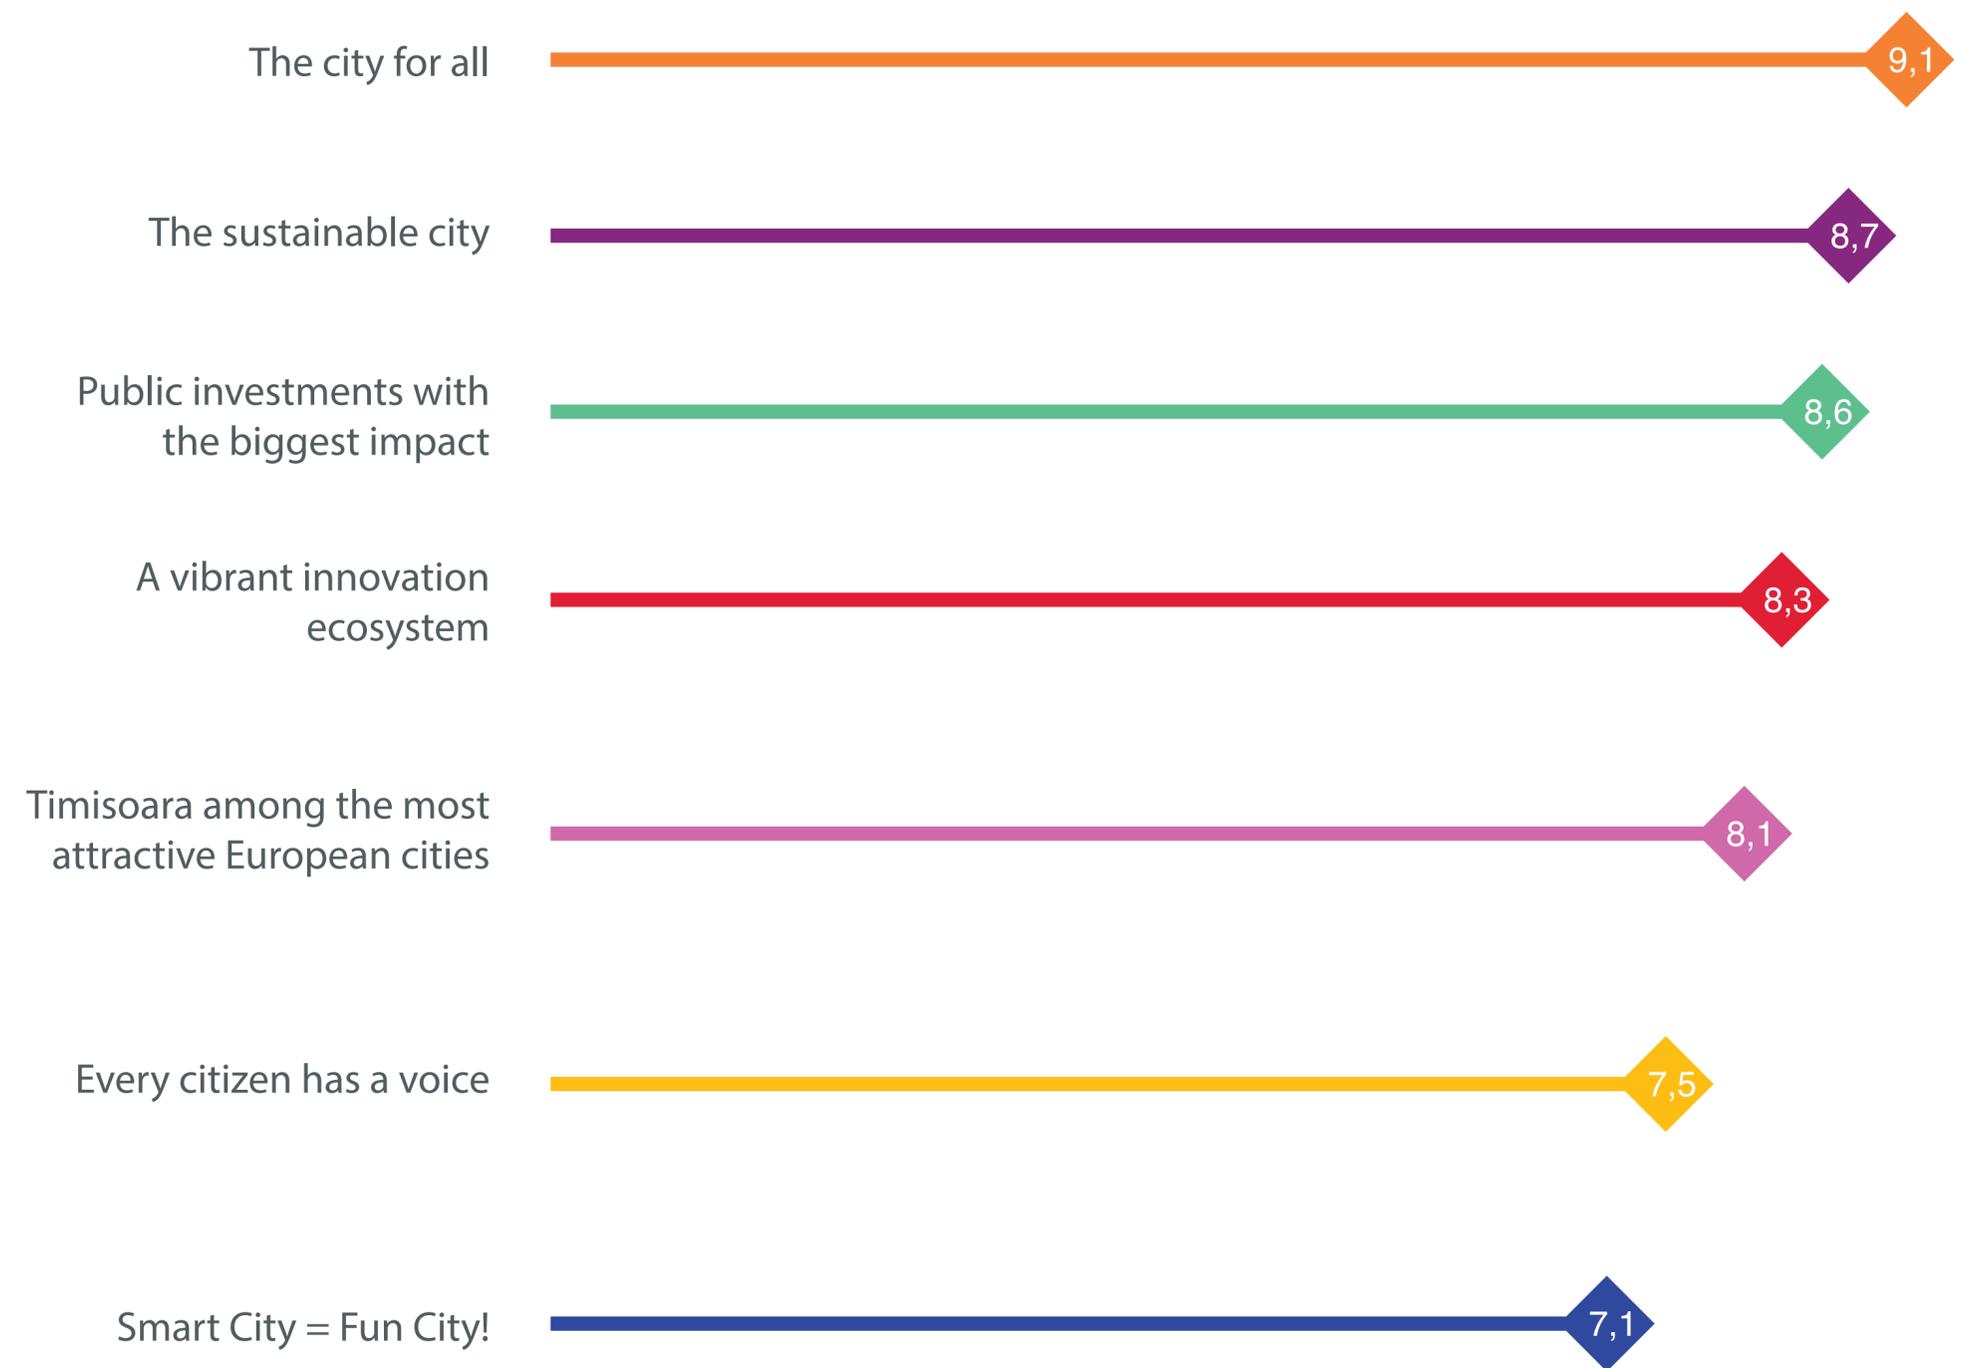

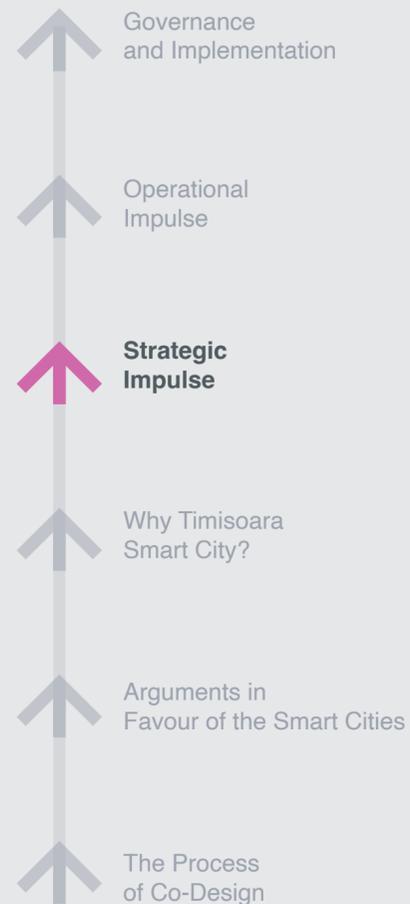

**International experts from Singapore, Ireland, the Netherlands and Hungary**, involved by the Facilitator

**Facilitator** with the role of process design, full orchestration, research and drafting the document

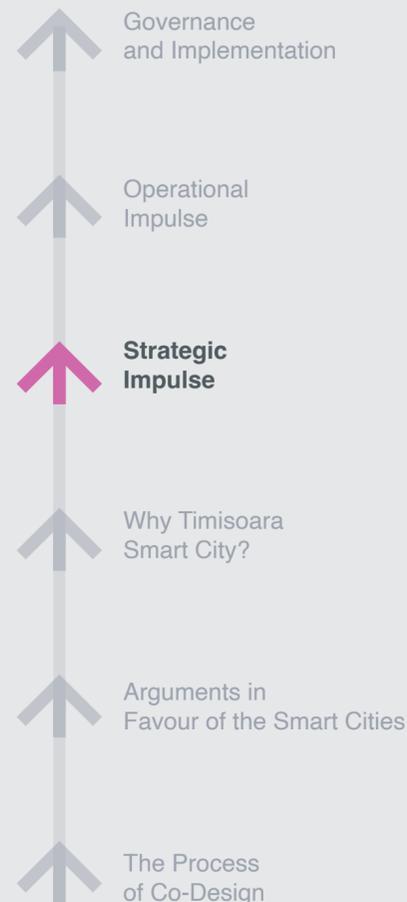

# Roadmap

# The 7 Ambitions of the Strategy

# The 7 Ambitions of the Strategy

➤ **"The City for All", "The Sustainable City" and "Intelligent and Impactful Public Investments"** represent the foundation of the Smart City Timișoara, the access to appropriate **RESOURCES**, in terms of favourable environment conditions, effortless interactions between the city and its inhabitants, and public investments that are positively perceived during everyday life

➤ **"Every Citizen Has a Voice" and "Smart City is Fun City Timișoara"** represent the capacity of the Smart City Timișoara to create rapport and fellowship with the inhabitants, the **HUMAN-CENTRIC approach**. As public decisions will rely more and more on citizens' consultation, the city will become the favourite place for work and fun, and especially for the feeling of "home" and "belonging".

➤ **"Vibrant Innovation Ecosystem" and "Timișoara – An Attractive City for International Talents"** represent the upper level of the Smart City Timișoara, the authentic capacity to generate value and innovation, and to **COLLABORATE**, which would count in the benchmarking with other European cities. These two Ambitions target the setting-up of the internal conditions for competitiveness, as well as the city's ability to become a "magnet" for talents, beyond the national borders.

# Ambition 1: Every Citizen Has a Voice

---

SMART CITY KEY  
DIMENSION:  
GOVERNANCE

SUSTAINABLE  
DEVELOPMENT GOAL

With a city population over 325k, and a metropolitan area population over 440k, Timișoara has the premises for a cohesive urban community.

Automation, transparentising and traceability of the consultation process through digital means, can contribute to reviving the civic and participatory spirit.

# Ambition 1: Every Citizen Has a Voice

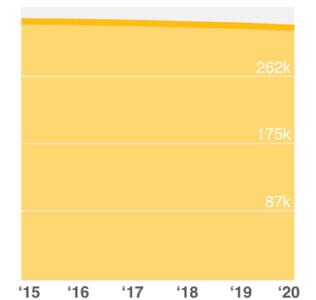

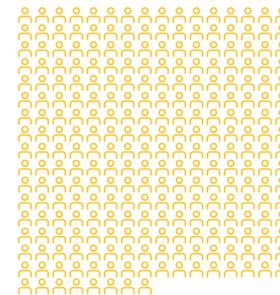

**93.468**  
Number of participants to the local elections 2020

**2.639**  
Number of participants to the first consultation hosted on DECIDEM (2021)

**1.900**  
DECIDEM – number of visualisations during the first month after launch (4 noiembrie 2021)

**325.522**  
Overall population

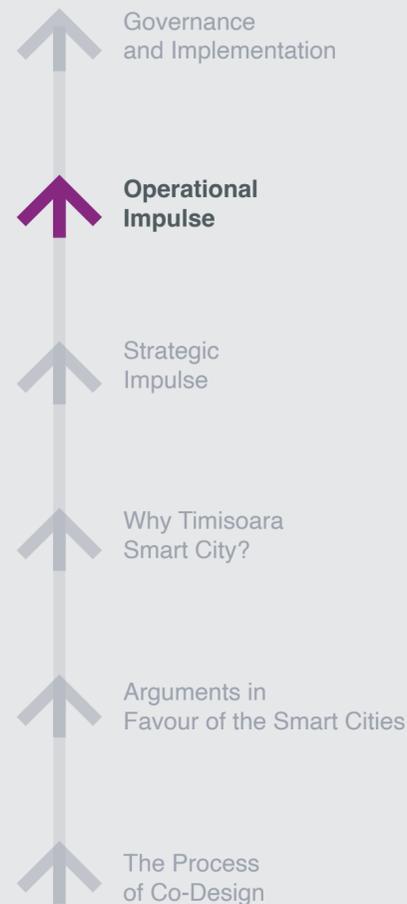

**441.335**  
Population within the Timisoara Metropolitan Area

**1.413**  
DESI Timișoara (number of respondents 2021)

**20**  
Neighbourhood Councils

**31**  
Open Data portal number of data sets

# Ambition 1: Every Citizen Has a Voice

## OBJECTIVES

**Creating a participatory culture and diversifying the opportunities and tools for citizens and the private sector to get involved in public life**

## STRATEGIC PROJECTS

-  **Timișoara Open Data Action Plan**
-  **The Collective Intelligent City Timișoara** - the new paradigm of city-wide involvement, decision-making and action
-  **Smart solutions for social inclusion** through education and creativity
-  **NGO Registry**, including working groups within the city
-  **Presenting information about a project in which citizens are invited to participate** in a structured way, with clarity about the course and purpose

### KEY

- Planned 
- In progress 

# Ambition 1: Every Citizen Has a Voice

## OBJECTIVES

**Digital literacy and community education**

## STRATEGIC PROJECTS

**Centre for Digital Education Timișoara:** Permanent and adapted support to the citizens' needs, in view of gradual and intuitive use of digital instruments created at city level

**Smart City Citizens Onboarding:** Educational process for citizens who want to get involved in the smart city approach or another participatory approach related to the digital transformation (e.g. platforms and solutions already in operation or being implemented)

**"Make your voice heard":** education in schools with digital tools on civic participation and city history

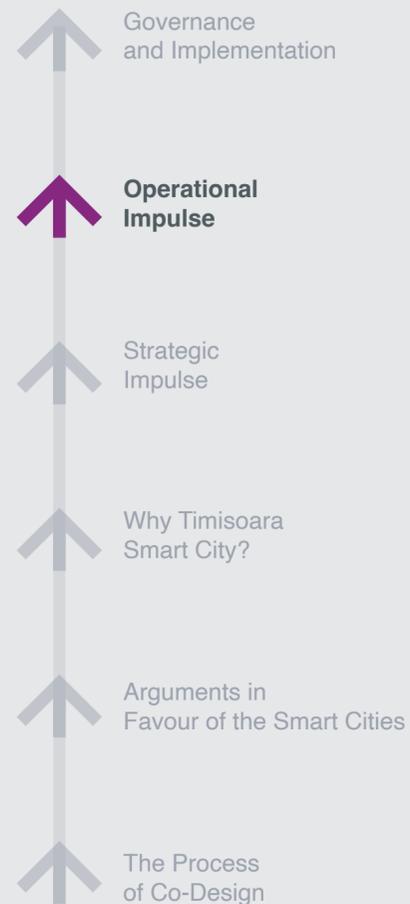

**Educating civil servants to communicate effectively with the citizens** and to use new tools for information, consultation and collaboration with the citizens

**Civic education:** Attracting local partners - civic groups, NGOs - to educate citizens on how to get involved

### KEY

- Planned
- In progress

# Ambition 1: Every Citizen Has a Voice

## OBJECTIVES

**Transparency and access for citizens to public decisions, so that they feel they have knowledge and control**

## STRATEGIC PROJECTS

- ➔ **The public participatory platform DECIDEM:** Local governance system and citizens' consultation (<https://decidem.primariatm.ro/>)
- ➔ Transparent platform for **reporting specific problems** (e.g. garbage, potholes, etc.)
- ➔ Department for **interacting with the citizens** in the City hall
- ➔ **Mechanism for listening to the inhabitants** of each neighbourhood
- ➔ Facilitating the creation of "**local management / communication groups**" with local citizens
- ➔ Implementing the **participatory budgeting process**
- ➔ Generating **Open Data for a transparent and digital administration**

## DIGITAL ENABLERS

# Ambition 2: The City for All

SMART CITY KEY  
DIMENSION:  
PEOPLE

SUSTAINABLE  
DEVELOPMENT GOAL

The accessibility of public services through state-of-the-art technologies, might stand as a challenge, given that 17,7% of the population is over 65 years old.

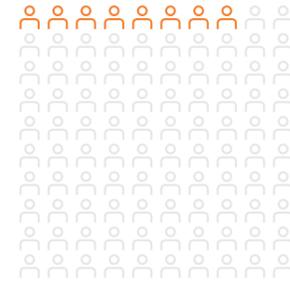

The technology to interact with citizens is into place, yet under-used, as the payment of taxes and submission of requests takes place in written / physical format.

# Ambition 2: The City for All

**8,04%**  
Natural persons who undertake online payments via Atlas (DFMT 2021)

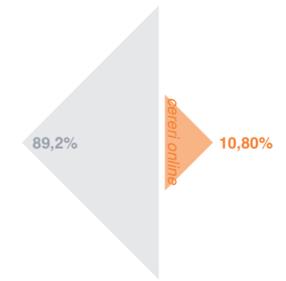

**15,76%**  
Juridical persons who undertake online payments via Atlas (DFMT 2021)

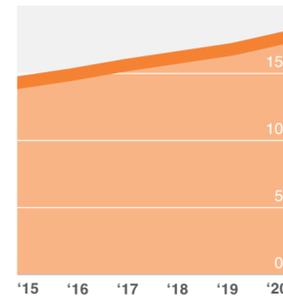

**74,30%**  
% online requests at Timișoara Registry of inhabitants (2021)

**10,80%**  
% online requests at the City hall of Timișoara (Room 12)

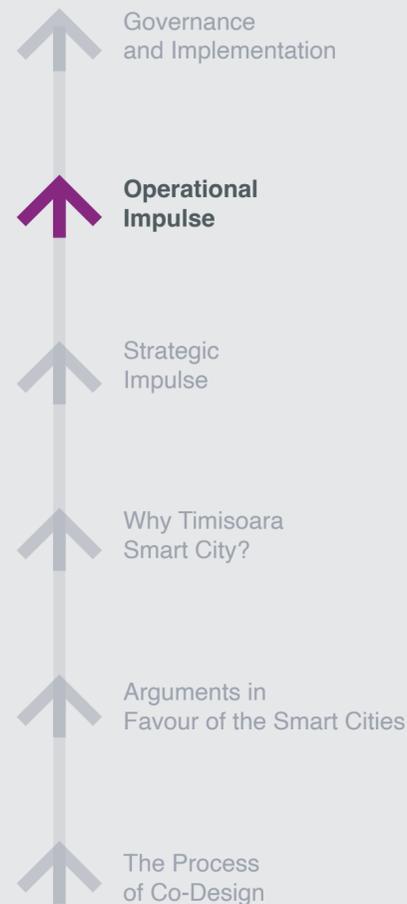

**17,70%**  
Population over 65 years old

# Ambition 3: Vibrant Innovation Ecosystem

SMART CITY KEY  
DIMENSION:  
ECONOMY

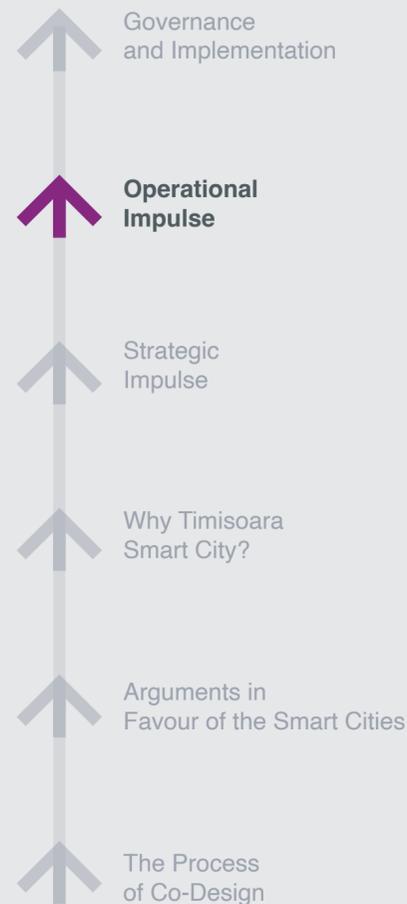

SUSTAINABLE  
DEVELOPMENT GOAL

In Timișoara there are the ingredients for an innovation ecosystem – universities, R&D institutes, corporations, startups, intermediaries etc. – but these are barely exploited at the level of structure, collaboration and exchange of knowledge.

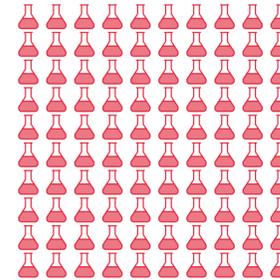

# Ambition 3: Vibrant Innovation Ecosystem

**6,80%**  
% startup from total enterprises

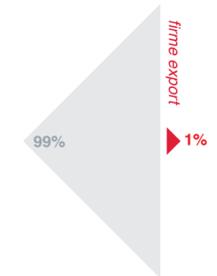

**1.027**  
Number of labs within universities

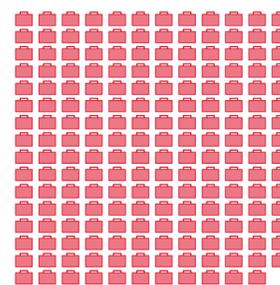

**2**  
High Performance Computing infrastructure  
Blue Gene (Universitatea de Vest din Timișoara) + Cloud (Universitatea Politehnica Timișoara)

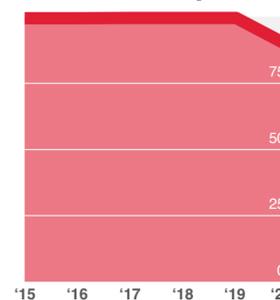

**1,00%**  
% exporting companies

**19.145**  
Total number of enterprises

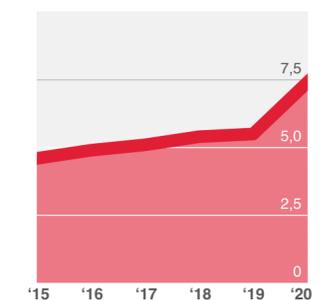

**89,20%**  
% SMEs from total enterprises

**14,20%**  
% foreign owned companies from total

**7,40%**

# Ambition 3: Vibrant Innovation Ecosystem

## OBJECTIVES

**Stimulating the entrepreneurial culture, based on thematic and sectoral differentiators of competitiveness for Timișoara at international level, in terms of research-development-innovation, knowledge or human resources**

**"From Lab to Market"** – support package to attract innovators and startups from around the world

**Information package for "newcomers" to the ecosystem:** human resources, facilities, knowledge, specialisations, local actors, etc.

**International Innovation / Local Smart City Strategic Projects Fair**

**Raising the quality of education, at all levels, through meaningful and structured involvement of business professionals**

**Multi-industry and multi-education hub**

**Smart City technology Specialisation pole:** defining the specific domain of intelligent development of the city

**Knowledge transfer between the tech companies** from Timișoara

**Partnerships for innovation** between local authorities, the entrepreneurial environment, and the education environment (pre-university - university - post-university - technological - vocational), **on the "smart city" theme**

# Ambition 6: Smart City is Fun City

SMART CITY KEY  
DIMENSION:  
LIVING

SUSTAINABLE  
DEVELOPMENT GOAL

Alongside with the existing culture infrastructure, it is essential for a true "Fun City Timișoara" the contribution of the creative entrepreneurship, tech and niche events.

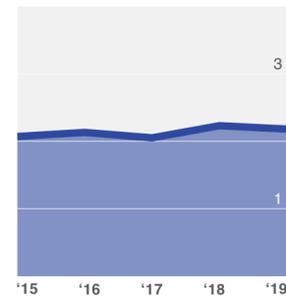

As an observation, Rome benefits from the same average length of stay of tourists, but with a number of 15 million tourists. In the case of Timisoara, the number of tourists is balanced with regard to the number of inhabitants.

# Ambition 6: Smart City is Fun City

2,18

9  
Museums

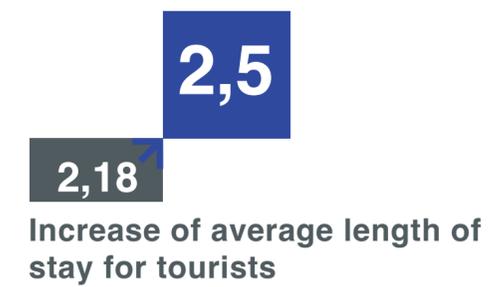

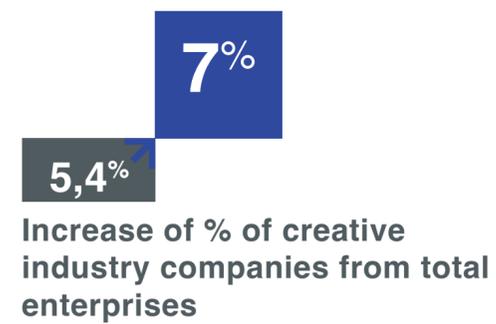

# Ambition 6: Smart City is Fun City

## KEY INDICATOR OF THE AMBITION

## OUTCOME KPIs

## OUTPUT KPIs

# Ambition 6: Smart City is Fun City

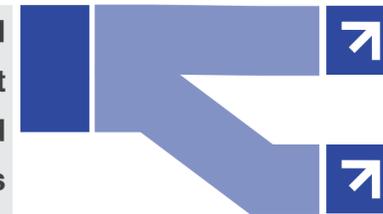

## OBJECTIVES

## STRATEGIC PROJECTS

**Improved mental and physical health of citizens in a city that offers more predictability and less stress**

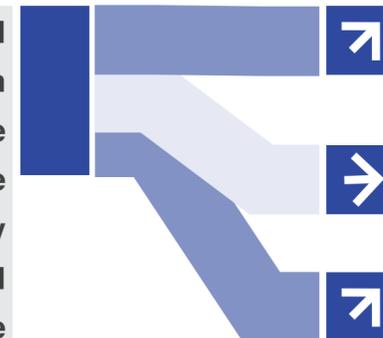

**"TIMISOARA" Cityapp - Integrated App** incorporating all useful information: entertainment, tourist attractions, HORECA, public transport routes, parking,

**Sports in parks:** Providing and distributing sports that can be placed in public parks/areas and promoting them digitally on the map

**A dynamic and diverse cultural life of the city, based on Timișoara Capital of Culture 2023 rollout, vibrant creative industries and an innovatively harnessed multicultural cultural heritage**

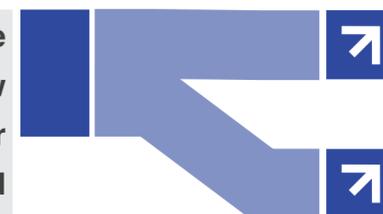

**Culture in the street and local night life promoted digitally:** The presence of artists from all creative spheres on the streets of Timișoara

**Tourist/interest locations mapped on VR/AR apps** connected to physical locations and stories in the city

Platform to support **cultural operators** to deliver high quality events

**Creating the conditions for the city in which you want to grow professionally, raise your children and grow old**

**Creativity workshops for neighbourhood citizens:** spaces with basic equipments and technologies, playshop, makerspace, exhibition, all adapted to the profile and traditions of the neighbourhood

**High-tech interactive urban installations:** QR codes in public spaces with information about cultural events, educational activities for children, smart parks and resting places (with wireless charging and free wifi)
